

The Cloud and Business

SEHG-CD-7732 · Business · approx. 8 min seat time · English · 100% online, self-paced

Accreditation & industry alignments: none verified on record — institutional accreditor mapping pending

COURSE DESCRIPTION

The cloud has become a vital component for business as technology becomes embedded in modern life. Every leader needs to understand the cloud and how it operates as well as the potential dangers and pitfalls associated with cloud computing. Knowledgeable monitoring and maintenance can be the difference between the success and failure of the technology's use. With our The Cloud and Business course, you will discover the specifics of how the cloud can be a useful business tool. With a clear understanding of the cloud, your participants will be able to make the best decisions for their customers and business.

WHO THIS COURSE IS FOR

Working professionals, team leads, and career-changers who want practical, job-ready Business skills — no prior coursework required. Teams and organizations can enroll groups for consistent, measurable upskilling.

SKILLS & LEARNING OUTCOMES

Upon completion, the student will be able to:

- Understand what the Cloud is
- Recognize risks and benefits
- Communicate effectively
- Employ business processes
- Monitor performance
