About This Workshop

Social intelligence is having an understanding of your environment and a positive influence on those around you. Your participants will become more confident in their social situations by learning how to express and interpret social cues. They will learn to create positive connections and increase their influence during social situations. The Social Intelligence workshop will provide participants with ideas they can carry throughout their professional and personal lives. It is a fantastic tool for coaching and development as participants discover new “people skills”. Improving social skills through active listening, understanding body language, and being more empathic will give your participants the advantage in social interactions. Social interactions are a two-way street, know the rules of the road!
